3-D IMAGING INFORMED CONSENT

Oral & Facial Surgeons of Ohio (Drs. Rekos & Border) uses a **ConeBeam3-DDentalImagingSystem (i-CAT/i-PAN)** to capture digital images.

You may have an i-CAT scan or i-PAN scan during the course of your treatment. The i-CAT scan or i-PAN scan is intended for your doctor to evaluate skeletal, and/or soft tissue structures of the face only.

Our doctors will review the scan in order to treat you for oral and maxillofacial procedures. In addition to our surgeons review of this scan, you have the option to have the entire scan reviewed by a "Medical or Maxillofacial Radiologist", located outside of our practice, to evaluate the remainder of the anatomic structures in your head, face and neck. We will arrange to have this completed for you, if choose this optional service.

The radiologist will charge a fee for this service. This fee may or may not be covered by your insurance carrier. You will be notified of the radiologist's fee prior to review of the scan.

I understand that Oral & Facial Surgeons of Ohio (Drs. Rekos & Border) uses **Cone Beam 3-D Dental Imaging System (i-CAT/ i-PAN),** to capture digital images and that I, or my dependent may have an i-CAT scan or i-PAN scan captured during the course of treatment.

☐ I **do not** wish for the i-CAT/i-PAN scan to be sent for review by a radiologist.

☐ I **would like** the i-CAT/i-PAN scan be reviewed by a radiologist. I realize that I will be responsible for any charges incurred for this review.
